RESPONSE TO OFFICE ACTION

Sir:

In response to the Office Action dated October 23, 2003, Applicant herein amends the above-identified patent application and responds as follows:

In the Claims:

Please amend claims 1 to 6 as follows:

Do not
enter
SUB B

a1

1. (Amended) An information signal transmission device, connected to a network, for transmitting an information signal, the device comprising:
an information broadcasting device for broadcasting a message to the network;
an information receiver for receiving a message broadcast to the network; and
an event manager for delivering the broadcast message within the device, wherein an object can exchange a message with an unspecified destination without any discrimination between outside and inside the device by exchanging the message with the event manager in a one-to-one communication.
2. (Amended) An information signal transmission device according to Claim 1, wherein an information transmitter broadcasts each message with reference information attached thereto, the reference information changing according to a predetermined sequence at each message broadcasting, and holds the broadcast message, and transmits the message held by the information transmitter in response to a transmission request.
